1. The Programme 2015-2016

In the school year 2015-2016 a Graduate Certificate in the Education of Students with Autistic Spectrum Disorders will be offered in St Patrick's College, Drumcondra, Dublin 9. The Programme will run from September 2015 to early June 2016.

An application form accompanies this Circular for completion by eligible teachers interested in participating in the programme. Completed application forms should be forwarded to **The Course Director, Special Education Department, St Patrick's College, Drumcondra, Dublin 9**, to be received not later than 27th February, 2015.

Eighteen places are available in the Programme year 2015/2016.

2. Funding

Funding for the programme is provided by the Teacher Education Section of the Department of Education and Skills.

3. Aim and Content

The aim of the programme will be to provide substantial theoretical and practical training for teachers working with students who have autistic spectrum disorders and, thereby, to contribute to the school's overall capacity in this area. A qualification of Graduate Certificate will be awarded by Dublin City University. Participants will be assessed on the basis of **full attendance** at the programme venue and **full participation** in the distance elements of the course, completion of selected tasks and written assignments and supervision of their work in school. Further details will be made available to applicants by the Special Education Department of St Patrick's College.

4. Duration and Organisation

The programme is one-year, part-time from September 2015 to June 2016, and consists of 3 modules. The course is delivered through distance learning modes, on-site learning at St. Patrick's College and considers teachers' practical engagement with students in schools. The programme is based on participants being released from their schools for three weeks of the academic year.

The programme will include face-to-face tuition, tutorials and visits to other educational settings to observe examples of exemplary practice. The distance element of the course will include online synchronous and asynchronous engagement (course materials, online lectures and discussion fora).

5. Eligibility

Collaborative practices, such as team-teaching, can also form a part of these arrangements.
