General Council Report 1427

(Meeting/s of 28 May 2003)

That the Mileage Rates for towing a trailer on official business should be increased as it has not been since 1980.

[1] A trailer allowance is payable to employees who must use a trailer in the course of their official duties. The rate of the allowance depends on whether an employee uses a private or official trailer.

[2] Based on an interim analysis the official side offered a 30% increase in the various rates, the new rates are set out in the appendix attached. The Staff side accepted the offer.

[3] The Official Side will propose a methodology that will allow the trailer mileage rates to be reviewed on an annual basis for future years.

[4] It was agreed that the revised allowances would take effect from 1st January 2003.
