General Council Report 1502

(Meeting/s of 28 November 2007, 27 February 2008)

That IMPACT seeks to condense the number of points on the incremental scales of professional and technical grades

1. The Staff Side said they were seeking to condense the number of points on the incremental scales for professional and technical grades. They stated that the incremental scales for a number of grades are quite lengthy, the annual increases are minute and it would be more effective to condense the scales.
2. The Official Side stated this was a major cost increasing claim. Under section 27.7 of the partnership agreement 'Towards 2016', no cost increasing claims will be made or processed during the currency of the Agreement. The Official Side refused to concede the claim.
