Payment of part-time teachers in primary schools on the payroll operated by the Department

Phase 1 – Part-Time Learning Support Resource Teachers and Part-Time Resource Teachers

The Department is putting arrangements in place so that part-time teachers will be paid through the payroll operated by the Department rather than the current grant payment system operated by Boards of Management.

This change will help reduce the administrative burden on schools and will also help ensure that the terms of the Protection of Employees (Part-time Work) Act, 2001 are fully implemented for part-time teachers.

The first phase of this project will focus on part-time learning support resource teachers and part-time resource teachers with other categories of part-time teachers to follow in later phases. When implemented, salary payment to part-time teachers will be made fortnightly by electronic funds transfer directly to teachers’ bank accounts. The teachers will be paid on the same payday as permanent, fixed term and substitute teachers.

It is intended that part-time learning support resource teachers and part-time resource teachers will be paid through the payroll operated by the Department from a date in 2009 – the precise date will be notified to schools and will be based on factors such as the most appropriate date from the Department’s administration perspective and how well and quickly information on these teachers is supplied by schools to the Department.

You will be contacted again in advance of this with the proposed start date and for any additional information required from you at that time, e.g., P45.
In order to facilitate the setting up of part-time learning support resource teachers and part-time resource teachers on the payroll operated by the Department the following forms will need to be completed and returned to the Department:
